12. CATERING FACILITIES

13. DRUG TESTING

The BPA fully supports Drug-Free Sport and is committed to preventing drug misuse in sport parachuting. Drug misuse is cheating and it may prejudice your safety and the safety of others. There is no place for the misuse of drugs in our sport. The BPA's Anti-Doping Policy and Rules are set out in BPA Form 220 which is downloadable from the BPA website and available on request from the BPA Office.

ANY COMPETITOR may be required to take a random drugs test. Refusal to provide a urine sample for analysis will result in disqualification. Many medications that you may need to take for common medical conditions, such as asthma or hay fever, may contain Prohibited Substances. It is vital that you do not accidentally take a prohibited substance, the consequences are the same as if you were doping. Getting it from a doctor on prescription is no defence!

For further information, please see the anti-doping page of the BPA website <http://www.bpa.org.uk/competition/drug-free-sport> which has links to the FAI and World Anti-Doping Agency (WADA) websites, where you can find up-to-date information about the prohibited list of substances and therapeutic use exemptions (see below).

Each competitor is STRICTLY LIABLE- this means that it is your own personal responsibility as a competitor to ensure you comply fully with this policy. A positive test result means disqualification for the whole team, a loss of any sponsorship, and a ban for the individual. BPA Form 220 sets out the procedure to be followed in the event of a positive test. The test is concerned with whether a prohibited substance is present in the body, not how or why it got there.

The Therapeutic Use Exemption (TUE) application process gives competitors a means of attaining approval to use a prescribed Prohibited Substance or Method for the treatment of a legitimate medical condition. This process is in place to protect the rights of competitors to compete on a level playing field.

Any competitor with a TUE must attach a copy to the competition entry form, and must also file a copy with the BPA Office before he or she competes. TUE forms may be downloaded from the anti-doping section of the FAI website:

http://www.fai.org/index.php?option=com_content&view=article&id=34701:cimp-therapeutic-use-exemptions-tues&catid=343:cimp&Itemid=1051

14. AIR TO AIR VIDEO

Teams are requested to inform UK Parachuting (Sibson) whether they will be competing with their own videographer or require one from the “pool”. Teams will not have a choice of pool videographer – it is possible that a different Videographer may be allocated for each round.

NB 1: It is recommended that each team bring their own videographer.

NB 2: Will all teams note – if videographers are jumping on more than one team then, after the competition draw, the order of jumping will only be altered with the full consent of all Team Leaders of the event in question, the Chief Judge and the Meet Director. However the Meet Director reserves the right to alter the order of jumping if required to benefit the running of the competition.

NB 3: ALL videographers are required to have camera helmets with no snag points and a single point of release cutaway system.

15. PRIZE GIVING

Prize giving will begin as soon as the host Drop Zone can arrange after the event has been completed and once any dignitaries who will be involved in the presentation are available.

In the Open event, only a gold medal may be awarded. The Open gold medal will, however, be awarded only if the winner is ineligible for the British Nationals.

16. LICENCE TO USE IMAGES

In entering this competition, competitors agree to grant the BPA Ltd a royalty-free non-exclusive licence to use any video or other images submitted to the competition for training and judging purposes.
