BRITISH PARACHUTE ASSOCIATION (BPA) **NATIONAL OPEN SPEED SKYDIVING CHAMPIONSHIPS 2019**

Venue: Skydive Buzz, Dunkeswell Airfield, Nr Honiton, Devon, EX14 4LG
<https://www.skydiveukltd.com> Tel: 01404 890 222

Event: BPA Open Speed Skydiving national championships 2019

The Nationals meet is held over the course of 2 days.

Within the Open competition, separate classifications for the British Nationals will apply as covered in Appendix 1

Qualified competitors must be present at the times scheduled by the hosting Drop Zone.

1. COMPETITION AIMS

- a) To determine the British National Champions in Speed Skydiving.
- b) To determine the British standings of the competing individuals.
- c) To establish selection guidelines for National Teams and Individuals to be invited to attend FAI Category 1 Events in 2020.

In the event of any circumstances that result in no National Championship competition jumps, the criteria used for the British team/s or individuals to be selected will be at the discretion of the Competitions Committee.

- d) To promote and develop Speed Skydiving Competition.
- e) To allow participants to share and exchange experience, knowledge and information.
- f) To improve judging methods and practices at national level.

2. COMPETITION DATES

Saturday 3rd August to Sunday 4th August 2019

3. OTHER DATES

- a) Entry form and entry fees to arrive by 1900 on Friday 2nd August 2019 to Skydive Buzz (Nationals Entry Form & Indemnity Form can be found on BPA Form 274)
- b) Booking in by: 1900 on Friday 2nd August 2019
- c) Competitors Briefing: 1900 on Friday 2nd August 2019

4. PRACTICE JUMPS

Practice jumping will be available on the official practice day, the day before the start of the

competition.

5. **ENTRY FORMS AND FEES**

- a) Completed Entry Forms accompanied by the Speed Skydiving Entry Fee must reach Skydive Buzz, Dunkeswell Airfield, Nr Honiton, Devon, EX14 4LG
- b) General entry fees are **not** refundable under any circumstances.
- d) **Entries** will only be accepted up to 1900 on Friday 2nd August 2019 or later at the discretion of the Meet Director.
- e) In the event of any competitor being unable, through personal commitments, injury, or any other reason, to complete any part of the competition, **no** outstanding jump fees will be refunded.
- f) Full refunds will be available on jumps not taken due to incomplete events. However, this does not apply to eliminator rounds.
- g) Speed skydiving entry fee - £40 per person. This includes hire of BPA Speed Measurement Devices (FlySights), which will be allocated on a first come first served basis. We would encourage competitors to use their own devices as the BPA do not have enough devices to cater for all competitors.

6. **BOOKING IN**

- a) All competitors must book in by 1900 on Friday 2nd August 2019.
- b) All outstanding competition jump fees to be paid for when booking in (see note below).
- c) Speed Skydiving fees: £26 per person / per round (8 rounds = £208)
- d) Protest fee: £10
- e) Re-jumps: All re-jumps are to be paid for

Note: The above tariff includes a BPA levy towards the British Team Fund of £5.00 per entry fee and £1.00 per person per paid jump.

7. **DOCUMENTATION**

All competitors will be required to produce the following documentation when booking in:

- a) British Championship Senior category competitors - **Full** valid BPA membership. Open Class Competitors - A valid BPA Membership (Full or Temporary).
- b) Minimum BPA 'C' Licence and a minimum of 200 descents.
- c) A current Medical Certificate/Declaration (Form 114)
- d) The competitor's current and up to date parachutists log book.
- e) Speed Skydiving competitors must have their logbook endorsed as being competent to participate in Speed Skydiving at competition level. This endorsement can be from either their CI, a FF2 coach, or a person recognised by the host CI as having a good knowledge of Speed Skydiving. (Hosting DZ CI has final approval)

- f) Competitors must have completed at least 20 jumps in the last 3 months.
- g) Sporting Licences are not required for entry into the British National Championships. However, any competitor who feels they or their team may achieve a world record during the Nationals (or at any other time) must have (a) current Sporting Licence(s) prior to achieving that record. Also, any competitor wishing to be eligible to represent the UK at a World Championships or World Cup must be eligible for a current UK Sporting Licence (eligibility criteria can be found on BPA Form 110). Competitors may obtain a new Licence or the current 'stamp' at any time. Applications for a Sporting Licence or Sporting Licence renewal stamp must be made using BPA Form 110 directly to the BPA office. A fee applies. Sporting Licences or currency stamps will no longer be issued at BPA Clubs. Sporting licences should be applied for at least one month before the National Championships, as the BPA will require supporting documentation for those competitors not holding a UK passport. The Sporting Licence holder must be included on an FAI database by the BPA, at least one month prior to an FCE when representing the UK.

10. **EVENT ELIGIBILITY**

Eligibility for these events is covered in Appendix 1.

11. **EQUIPMENT**

Each individual is responsible for supplying his or her own equipment. This must consist of:

- a) A serviceable main and reserve parachute, container and harness. This must be 'freely friendly' equipment (at CIs discretion). No extra weight permitted.
 - b) The use of an electronic Automatic Activation Device (AAD) is mandatory and must be used for every jump. The use of an Audible Altimeter is mandatory.
 - c) An equipment record of inspection (if packed in the UK) and a reserve data packing card.
 - d) Suitable clothing and footwear of a protective nature.
 - e) FlySight SMD – The BPA has a limited number of FlySight SMDs (Speed Measurement Devices). These will be allocated to the first complete entries submitted. They will be allocated free of charge on a first come first served basis so competitors are advised to bring their own devices.
- N.B. All equipment and documents must comply with the requirements of the BPA Operations Manual.

12. **COMPETITION AIRCRAFT**

At the time of writing the competition aircraft are expected to be:
2x Kingair Beech 99 (Max 20 parachutists), Backup aircraft Cessna Caravan (Max 15 or 20 Parachutists)
Each numbered round will be performed from one specific aircraft type.

13. **COMPETITION OFFICIALS**

Competition Officials will be notified during the competition briefing.

14. **TROPHIES**

All competitors who won trophies last year are asked to return them to the host venue by the beginning of June 2019.

15. **CATERING FACILITIES**

Full catering facilities will be available either at the drop zone or at the drop zones restaurant a short walk from the drop zone during competition times.

16. **DRUG TESTING**

The BPA fully supports Drug-Free Sport and is committed to preventing drug misuse in sport parachuting. Drug misuse is cheating and it may prejudice your safety and the safety of others. There is no place for the misuse of drugs in our sport. The BPA's Anti-Doping Policy and Rules are set out in **BPA Form 220** which is downloadable from the BPA website and available on request from the BPA Office.

ANY COMPETITOR may be required to take a random drugs test. Refusal to provide a urine sample for analysis will result in disqualification. Many medications that you may need to take for common medical conditions, such as asthma or hay fever, may contain Prohibited Substances. It is vital that you do not accidentally take a prohibited substance, the consequences are the same as if you were doping. Getting it from a doctor on prescription is no defence!

For further information, please see the anti-doping page of the BPA website <http://www.bpa.org.uk/competition/drug-free-sport> which has links to the FAI and World Anti-Doping Agency (WADA) websites, where you can find up-to-date information about the prohibited list of substances and therapeutic use exemptions (see below).

Each competitor is STRICTLY LIABLE- this means that it is your own personal responsibility as a competitor to ensure you comply fully with this policy. A positive test result means disqualification for the whole team, a loss of any funding, and a ban for the individual. BPA Form 220 sets out the procedure to be followed in the event of a positive test. The test is concerned with whether a prohibited substance is present in the body, not how or why it got there.

The Therapeutic Use Exemption (TUE) application process gives competitors a means of attaining approval to use a prescribed Prohibited Substance or Method for the treatment of a legitimate medical condition. This process is in place to protect the rights of competitors to compete on a level playing field.

Any competitor with a TUE must attach a copy to the competition entry form, and must also file a copy with the BPA Office before he or she competes. TUE forms may be downloaded from the anti-doping section of the FAI website:

http://www.fai.org/index.php?option=com_content&view=article&id=34701:cimp-therapeutic-use-exemptions-tues&catid=343:cimp&Itemid=1051

17. **PRIZE GIVING**

Prize giving will begin as soon as the host Drop Zone can arrange after the event has been completed or by 8pm.

In the Open event, only a gold medal may be awarded. The Open gold medal will, however, be awarded only if the winner is ineligible for the British Nationals AND has won the event in its entirety.

18. **LICENCE TO USE IMAGES**

In entering this competition, competitors agree to grant the BPA Ltd a royalty-free non-exclusive licence to use any video or other images submitted to the competition for training and judging purposes.

Appendix 1.

1. Authority

- 1.1. The competition will be conducted in accordance with the FAI, according to the regulations of the Sporting Code of the FAI, General Section, and Section 5 as approved by the IPC and validated by the FAI, and these rules. All participants accept these rules and the FAI regulations as binding by registering in the competition.
- 1.2. Changes are approved by the Competitions Committee and ratified by the Council of the BPA. Where an unforeseen change is felt necessary to ensure the smooth running of the competition a meeting will be held between Chief Judge, Meet Director and competitors.
- 1.3. There is no maximum number of scored jumps per day. This includes re-jumps and Tie Breaks.

2. Definitions of Words and Phrases Used in these Rules

2.1 Speed Measuring Device (SMD)

A device used to determine the vertical speed of the skydiver, which is mounted on the skydiver's body or equipment.

2.2 Breakoff Altitude

Breakoff altitude is set at 1700 metres AGL. Below the breakoff altitude no speed measurements are taken into account.

3. The Event

3.1 Event Description

- 3.1.1 The discipline will be comprised of the following event:

Speed Skydiving Open

- 3.1.2 Within the Speed Skydiving Open event, if there are more than three competitors for each category, separate classifications will be made for:

Speed Skydiving Male

Speed Skydiving Female

- 3.1.3 The competition in the classifications takes place during the rounds, and no separate jumps are made. The scores achieved in the rounds are used to determine the placing in the classifications.
- 3.1.4 The final scores in the open classification are also carried across to the female and male classifications.

3.2 Programme of Events

- 3.2.1 The event consists of 8 rounds.
- 3.2.2 The minimum number of rounds for a valid event is one.
- 3.2.3 Competitors make 8 rounds in the Open event. The final results for the classifications are those obtained in the Open event.

3.3 Objective of the event

The objective of the event is for the competitors to fly their body as fast as possible to achieve the highest average vertical speed through a 3 second window (see 5.5.1).

3.4 Performance Requirements

The accumulated total of the competition jumps is used to determine the final placings. The standings will also have a column showing the average speed based on number of rounds completed.

4. General Rules

4.1 Equipment

- 4.1.1 Competitors may not wear additional weight on their body, in any of their equipment, or on any of their equipment.
- 4.1.2 Parachutes and equipment will be inspected by the Chief Judge or Meet Director to confirm that they conform to normal weights for that equipment. Chief Judge and Meet Director may delegate this task to a qualified person, such as a Rigger, Senior Rigger or Master Rigger. If, in the opinion of the Chief Judge and Meet Director, the equipment does not conform to normal weights for that equipment, the competitor may be required to demonstrate that the equipment does not contain extra weight. This decision is not grounds for protest.
- 4.1.3 Parachutes and equipment will be inspected by the Chief Judge, Meet Director to confirm that they are safe for the event. The Chief Judge or Meet Director may delegate this task to a qualified person, such as a Rigger, Senior Rigger or Master Rigger. If, in the opinion of the Chief Judge or Meet Director, the parachute and/or equipment are not safe for the event, the competitor will not be permitted to use it. Inspections that do not interfere with a competitor's performance may be made at any time during the competition, as determined by the Chief Judge. If any equipment does not meet the requirements as determined by the Chief Judge or Meet Director, this equipment will be deemed to be unusable for the competition. This decision is not grounds for protest.
- 4.1.4 Each competitor must wear a suitable audible altitude warning device on every jump. Two suitable audible altitude warning devices, with visual indications in the goggles/visor, are recommended.
- 4.1.5 Each competitor will wear one SMD provided by the organiser and issued by the Chief Judge. The devices will be attached on the helmet to the satisfaction of the Chief Judge.
- 4.1.6 If a competitor changes his or her rig or helmet during competition, the new rig or helmet must be inspected by the Chief Judge or Meet Director according to 4.1.1, 4.1.2, 4.1.3 and 4.1.5 before the competitor is allowed to jump with the rig or helmet.
- 4.1.7 The SMD will be attached on the competitor's helmet by a member of the judging staff, the device will be attached with the antenna having a clear view of the sky, located and positioned to the satisfaction of the Judge. The device will be attached prior to the start of the competition.
- 4.1.8 A competitor shall not wear any other electronic device or wires closer than 2,54 cm from

the official SMD as measured by the judging staff. However, a second identical SMD unit may be worn without regard to this separation requirement. If any such electronic device affects the SMD system, and the source of the interference is not obvious and beyond the reasonable control of the jumper, a re-jump may be granted by the Chief Judge.

- 4.1.9 The SMD will be turned on before the jump and off after the jump by a Judge or by the competitor if instructed to do so by any Judge.
- 4.1.10 Immediately after the jump, the competitor must return the SMD to the judging staff. The competitor is not allowed to read the data directly from the SMDs before it is registered by the judges.
- 4.1.11 If the SMD is found to have been tampered with and if in the opinion of the Chief Judge this was not caused by circumstances beyond the control of the competitor, then no re-jump will be awarded and the competitor will receive a score of zero for that jump. This decision shall not be grounds for a protest.
- 4.1.12 If the SMD malfunctions and, in the opinion of the Chief Judge, the malfunction was not caused by action or interference by the competitor, then the competitor will be given the option of making a re-jump or receiving a score of zero for that jump.

4.2 Training jumps

- 4.2.1 All competitors must have the opportunity on the official practice day to make at least one official training jump, weather permitting.
- 4.2.2 The SMDs in use in the competition, and all competition rules and procedures, will be used for these jumps.
- 4.2.3 The official training jumps shall be judged by the Official Panel of Judges, or Judges in Training under direct supervision of the Chief of Judge Training, and the scores may be published.

4.3 Order of jumping

- 4.3.1 The order of jumping in the first round will be determined by reverse order of placing during the last competition.
- 4.3.2 Individuals not covered by this procedure will jump at the beginning or end of the first round, with order determined at the discretion of the Meet Director and Chief Judge.
- 4.3.3 Time permitting, and at the discretion of the Meet Director, reverse order of ranking may be used for all other rounds.

5. Rules Specific to the Event

5.1 Jumping Procedure

The exit point is determined by the pilot in conjunction with the Meet Director. The aircraft pilot will signal the competitors when they are clear to exit. All the competitors will be briefed on the specific exit signals at the pre-event competitors' meeting.

- 5.1.2 The exit delay between competitors must be such so as to ensure safe separation, and be at least 5 seconds.
- 5.1.3 The first person to exit on a pass turns 90 degrees to the right of the aircraft line of flight, the second turns 90 degrees left, and so on. All Competitors must turn to the appropriate direction immediately after their freefall trajectory is no longer affected by the forward throw/momentum of the aircraft. This is to prevent horizontal movement in the line of flight of the jump run. See 7.1.

5.2 Exit Order

- 5.2.1 For safety reasons, the exit order in a jump run is determined by the personal best of the competitors. The exit order in a jump run is personal best descending.
- 5.2.2 There will be a maximum of six (6) competitors per exit pass, but this may be reduced by the Meet Director taking into consideration the aircraft size and the dropzone area.

5.3 Exit Altitude

- 5.3.1 Exit Altitude: 13000 ft (3962 metres).
- 5.3.2 For meteorological reasons or air traffic circumstances only, and with the consent of the Chief Judge, the Meet Director may lower the exit altitude to 12000 ft (3658 metres) and continue the competition. However the breakoff altitude still remains 1700 metres.
- 5.3.3 Maximum Exit Altitude: The maximum exit altitude for a valid jump is 13500 ft (4115 metres). A competitor is not allowed to exit the aircraft at a higher altitude than the maximum exit altitude. If the SMD registers a higher exit altitude than the maximum exit altitude the jump will be considered as not valid and the score for this jump is zero.

5.4 Speed Measuring Device (SMD)

- 5.4.1 The SMD must be capable of gathering data, and/or transmitting real-time data to a ground station or stations, which allows the competitor's vertical freefall speed to be displayed in kilometres per hour to an accuracy of less than 10,8 km/h (3m/s), The SMD must also be capable of recording the exit altitude to an accuracy of 33 feet (10 metres).
- 5.4.2 The data from an SMD may or may not be required to be downloaded to computer in order to determine the competitor's speed.
- 5.4.3 If the SMD transmits its data to the ground station during the jump, then that data must be recorded and saved when it is received.
- 5.4.4 If the data from the SMD is downloaded for analysis to a computer after landing, then that data must be recorded and saved when it is downloaded.
- 5.4.5 If the speed result is to be read directly from the SMD after landing, then the result needs to be retained on the SMD for the duration of the competition and recorded on the score sheets.
- 5.4.6 The SMD must record real-time three-dimensional (3D) data with a resolution of at least 5Hz and a speed accuracy of less than 3m/s
- 5.4.7 The SMD must not require any action by the competitor in order for it to function.
- 5.4.8 Once attached to the competitor's helmet, it should not be possible for the competitor to alter settings

or data from the device without this being evident to the judges. Tampering with the device will result in a score of zero for the jump. This decision is not grounds for protest.

5.5 Scoring Speed Skydiving

5.5.1 The score for a Speed Skydiving jump is the average vertical speed in kilometres per hour, to the nearest hundredth of a km/h, of the fastest 3 seconds, which the competitor achieves between exit altitude (as defined in 5.3) and the breakoff altitude (as defined in 2.2).

6. Work of the Judges in the Discipline

6.1 Scoring the jump

6.1.1 Each performance shall be assessed by at least 1 Judge. All Judges must be BPA Speed Skydiving Judges. BPA Speed Skydiving Judges in Training, may assess a performance provided they are under the direct supervision of a Senior Judge.

6.1.2 If a computer is used to analyse the data to obtain the speed, then the data must be downloaded as soon as possible after the competitor has handed in the device, and before the SMD is used again.

6.1.3 If the speed is read directly from the device, then the readings are to be taken when the competitor hands in the SMDs, the speeds are to be written directly on to the score sheets, and the competitor is to sign for the score. The SMDs may then be used again.

6.1.4 If the speed is obtained from data transmitted during the jump to a ground station or stations, the SMD may only be used again once it has been determined that valid data has been obtained.

6.1.5 The scores will not be final until the data have been reviewed. The Chief Judge is responsible for determining a competitor's final score and placing.

6.2 Collation of the score sheets

The scores are collated immediately after the judges have assessed the jump. The results of the collation must be checked by the Chief Judge.

6.3 Determining placing

6.3.1 At the end of a completed round, the accumulation of the competitor's single scores is used to determine the competitor's total result. The total result for the competitor determines the ranking. The competitors are ranked in descending order of their total results.

6.3.2 While a round is in progress, unofficial results may be published. However, if the round does not get completed, the scores from the incomplete round must be discarded and the results must be amended to reflect the scores from the number of completed rounds.

6.4 Determination of the Winners

6.4.1 The competitor with the highest score is the winner.

6.4.2 In the event of a tie in the first three places, the following rules apply:

- (i) Where possible tie-break jumps shall be made.
- (ii) If this does not break a tie, then the competitor with the best result in any one round obtains the higher place.
- (iii) If the tie cannot be broken, the competitors concerned shall be declared co-medallists.
- (iv) All other ties shall be ranked equal.

6.4.3 In the event of a tie in the first three places in any of the classifications, paragraphs 4.4.2 will be applied.

6.5 Other Responsibilities

The Chief Judge may decide to interrupt the event if he considers that the meteorological conditions are not safe for the conduct of the event. This decision is not grounds for a protest.

7. Definitions

7.1 Exit Procedure
